

COMBO POOL

Goal

Merge two balls of the same color to transform them to the next color

Controls

Use the left and right *arrow buttons* to aim.
Press the **O button** to fire.

Life Bar

Each shot takes life from your life bar.
The more balls on the field the quicker the
bar drops. When it reaches zero you lose!

Combo Pool

Pro-tips

- #1 and #2 balls do more damage to your life bar, so avoid keeping too many at the same time

You get more points for merging higher number balls.

You get less points for each ball rebound before merging.

A useful technique is to quickly throw two #1 balls and make them merge at the first collision.

Try to avoid exploding pink balls as long as you can, you can expect making more points in the final explosion.
