# Chess

## Special Moves

### Promotion:

When a pawn reaches the end of the board it is promoted to either a knight, bishop, rook, or queen

# Chess

## Special Moves

### Castling:

When there is nothing between the rook and king and neither has moved the king can move two spaces towards the rook and move the rook around it.

### Enpassant:

A pawn can take another pawn the turn after it moved two spaces as if it only moved one.
